OBJECTIVE

With over 3+ years of experience in the IT industry, I have honed my skills in designing, developing, and delivering high-quality solutions. My expertise lies in leveraging the power of Microsoft Technologies to create robust and efficient n-tier enterprise web applications.

EXPERIENCE

Wipro Technologies

Full Stack Developer

2022 -

Worked as a .net full stack developer. Working on the development of a Web Applications using ASP.NET, MVC, C#, WCF, ORACLE SQL, HTML, CSS, JQUERY

EDUCATION

Utkal University

2022

Bachelor's Degree, Computer Science

A+

Itamati College Of Education And Technology

2019

Higher Secondary Education, Science

B

Sri Aurobindo Integral Education Centre

2017

BSE, Secondary Education

B1

SKILLS

Asp .Net Core

Web API

ASP.NET MVC

VB.NET

C#

ADO.NET

Entity Framework

Ms sql server

Oracle SQL Server

Angular

HTML

CSS

Javascript

jQuery

GIT

TFS

WCF

Agile Methodology

Azure devops

Finance Web Application of RSA

My Role: Full Stack Developer

Brief Description:

Developed a web-based policy management system to streamline tracking of Coverage, Premium, and Location for internal company use. In the application there are multiple types of user and they have different roles. Depending on their role they would be able to access specific features and data. It have also alerts and PDF download features in it.

Technologies Used:

- * Frontend: HTML, CSS, jQuery
- * Backend: VB.NET, ASP.NET MVC
- * Database: Oracle SQL Server
- * Data Access: ADO.NET
- * Version Control: Git & TFS
- * Development Methodology: Agile
- * Tracking User Stories and Defects : Jira

Key Contributions/Achievements:

- * Designed and implemented responsive user interfaces using HTML, CSS, and jQuery, improving user experience.
- * Developed ADO.NET data access layers to connect the ASP.NET MVC application with the Oracle database, enabling efficient data retrieval and manipulation.
- * Implemented features for managing different types of forms. Worked on Alerts and pdf download.
- * Implemented Role-Based Access Control (RBAC) to manage user permissions and ensure data security, restricting access to specific application features based on user roles.
- * Participated in Agile sprints, contributing to daily stand-ups, sprint planning, and code reviews.
- * Utilized Git for version control, ensuring code integrity and facilitating collaborative development.
- * Contributed to the improvement of data retrieval speeds by optimizing SQL queries. Written stored procedures. Handled the DDL DML scripts. I was a part of data migration task as well.
- * Got recognised by clients and management multiple times.
